

A PRIVATE TRAVEL PROPOSAL

Gabon Wildlife Safari

8 Days / 7 Nights — Wildlife, Waterfalls & Rainforest Safari

Discover the Heart of Equatorial Africa

Equatorial Africa's Best-Kept Secret

Gabon is one of the last places on Earth where elephants still walk onto the beach, where lowland gorillas move through the same forest as forest buffalo, and where a single national park — Loango — stitches together lagoon, savanna, rainforest, and open ocean without a fence in sight.

This itinerary was built around that rarity. We begin inland at Lekedi, home to the largest habituated troop of mandrills in the world, then cross the country to Loango's coast for boat safaris, gorilla tracking, and the kind of wildlife encounters that Gabon is only just becoming known for.

Every transfer, flight, park fee, and guide is arranged in advance. You arrive in Libreville; we handle the rest.
