## Day 3: Ziwani Lodge, Lake Eyasi

### Day Itinerary

After breakfast, today you will depart with a packed lunch for a chance to visit the two interesting and remote group of people who inhabit the area - the Hadzabe and Datoga tribes.

### Activities

#### ***THE WAHADZABE TRIBE***

The Wahadzabes are an off-shoot of the Acadi tribe. It is believed that they separated from the Acadi's in the 1700s. Never numbering more than 30 people, the Wahadzabes are a very secretive and protective community, although more visible than their parent tribe.

They inhabit the area near Lake Eyasi and are primarily a hunting and gathering community, whose livelihood depends on wildlife and other forest products. They are one of the most traditional and 'primitive' tribes in all of Africa. In 1995 it was reported that they were on the verge of extinction, because of denial of rights to own and use land in the area they occupy. Small in stature and speaking in an ancient click dialect, the Bushmen survive by their ability to blend into their surroundings and subsist off the land. It is now possible to travel to the wilderness area travelled by few, Lake Eyasi, which lies in one of the oldest parts of the Eastern Rift Valley, it runs northeast south-west for a distance of about 50 miles below the impressive 3000 foot escarpment. Natural beauty comes in many forms and here it is noticeable in its bird life. African fish eagles and crowned cranes and resident Verrauauxs eagle owls as well as quite a few Hammerkops and their huge nests. There is also the opportunity to see some game as you head out with the Hadzabe on a hunt, with the opportunity to see dik-dik, bush buck, reedbuck and vervet monkeys.

Here you will have the privileged opportunity to meet with the Wahadzabe tribe and observe and try your hand at hunting and gathering techniques that have remained largely unchanged for thousands of years. Learn to hunt with a bow and arrow and start a fire or join the women gathering roots, tubers and wild fruit and preparing food. Exploring a way of life vastly different to our own is an unforgettable experience.

### Activities

#### ***THE DATOGA TRIBE***

The migration history of the Datoga people is based on comparative linguistics and the oral traditions of the Datoga. Linguistically, the Datoga are classified as Southern Nilotes whose origins 3,000 years ago are rooted in Southern Sudan or in the western Ethiopia highlands. They migrated southwards and settled in Kenya and Tanzania. They are traditional pastoralists but eventually became agriculturalists farming in the highlands of Kenta and Tanzania around 1500 CE. The pastoral Barabaig, who speak the Datoga language, are a well-known sub-tribe of the Datoga peoples. They reside near Mount Hanang in the volcanic northern highlands of Tanzania. Mount Hanang is sacred mountain to the Barabaig and is the focus of many of its myths and songs.

The Datoga are a proud people and have a reputation as being fierce warriors. Young Datoga men prove themselves by killing any human being who was not a Datoga and, therefore, considered an enemy. They also proved themselves by killing a dangerous wild animals, such as a buffalo, lion, or elephant. The Datoga adapt to their new environments and dress in reddish brown color of soil. The colorful reddish color clothing worn by Datoga women are patched leather dresses. They also wear bead work, brass bracelets, and necklaces. The Datoga are also distinguishable by their decorative tattooing in circular patterns around their eyes.

At a time convenient to you, make your way towards the Plantation Lodge which is conveniently located just a stone's throw from the entrance to the Ngorongoro Conservation Area. On arrival at your lodge, you will be escorted to the reception for check in. After a short safari briefing, you will be shown your room to refresh and relax as you wait for dinner.

Karatu

### *Karatu*

Travellers heading for the Serengeti and Ngorongoro Crater will inevitably pass through the town of Karatu in the green hills of Tanzania's northern highlands. Presided over by the towering Ol Deani Volcano, this small, colourful town serves as a popular overnight stop for visitors exploring the area's many game parks. The town offers a variety of activities including browsing the bustling marketplace, sampling beer at a local brewery, visiting a traditional Iraqw homestead, or taking a guided walk through the Ngorongoro Forest in search of waterfalls and elephants caves. Whether you are looking for cultural tours, hiking and biking opportunities, a chance to enjoy an authentic rural Tanzania experience, or simply a break between safari game drives, this underrated town has plenty to offer.

## Overnight: Mysigio Camp

In the Ngorongoro Highlands, within the NCAA - tucked away from the main tourist trails – lies Mysigio Camp. The location is magnificent, set off the main road, in the heart of 'maasai country' with ancient forests and great views overlooking rolling hills. Being only 20 minutes' drive from the crater rim means that it's possible to get down into the crater for an early game drive; the camp crew can arrange a packed breakfast for those who want to make sure they don't miss any of the action.

The camp comprises of 12 massive luxury tents with complete en-suite bathroom facilities. Mysigio can host large groups, but also has the ability to split the camp into two; making two exclusive mess/lounge combinations, both complete with cozy eco-briquette heaters.

Mysigio Camp runs on 100% solar powered light, from the well-lit paths, to the bedside reading lights, ensuring that the clear Ngorongoro atmosphere is not spoiled by noisy generators.

The camp is fitted with a solar powered inverter enabling guests to charge camera and phone batteries. Note that it is not hefty enough to cope with hairdryers, laptops or shavers.

**Day 7: Camp Zebra – Ndotu or Kogatende, Serengeti National Park**

The Serengeti together with Kenya’s Masai Mara Game Park form Africa’s most famous wildlife park. The image of acacia trees on an endless grass plain epitomises Africa for many, and then add a Masai warrior and some cattle to the picture, and the conversation need go no further. The annual wildebeest migration through the Serengeti and the Masai Mara is the largest mass movement of land mammals on the planet – with more than a million animals following the rains. But that is not where the game viewing ends; large prides of lions, elephants and giraffes are found in the grasslands, along with gazelles and eland to mention but a few. Aside from traditional vehicle safaris, hot-air ballooning over the Serengeti plains has become almost essential, and you can even do a horse riding safari.

**Day Itinerary**

After breakfast and check out, depart to the Serengeti with a packed lunch. On arrival into the park, game drive towards your camp.

As the afternoon begins to end, you will make your way towards your camp. On arrival you will be assisted with check in and shown your tent.

## Travel Information

The name Tanzania conjures up images of wildebeest stampeding across vast savannah, rain forests teeming with monkeys and birdlife, and great plains brimming with legions of game. All of these natural wonders and more are on offer in this exceptionally diverse African nation. Visitors typically visit Tanzania to partake in at least one of the four well known Tanzanian tourist experiences: a relaxing seaside vacation on the picturesque island paradise of Zanzibar, an underwater tour of some of the world's most renowned dive sites around the gorgeous Spice Islands, a safari adventure in some of Africa's most impressive game reserves, or a hiking excursion around Mount Kilimanjaro National Park. Whichever of these incredible holidays you choose, you will undoubtedly be welcomed by some fabulously friendly and peaceful inhabitants who, despite being divided into 120 different ethnic groups and cultures, live in harmony with one another and provide some of the most wonderfully exotic local cuisine you could imagine. With all of this diversity on offer, the most difficult part of your Tanzanian holiday experience is likely to be deciding where to go!

### *Banking and Currency*

#### **Currency**

In Tanzania, the unit of currency is the Tanzanian Shilling, which is divided into 100 Cents. Notes are issued in denominations of 500, 1000, 2000, 5000, and 10000 Shillings. Coins are issued in denominations of 50, 100 and 200 Shillings.

#### **Banking**

Banks are open from 9:00am to 3:00pm Monday to Friday. Many banks are equipped with 24 hour ATM machines.

Credit cards and travellers checks are not widely accepted in Tanzania. Where they are accepted can high service fees and poor exchange rates be expected. Major foreign currencies - particularly US \$ - are accepted in Tanzania and are convertible at banks and bureau de changes in the main towns and tourist areas. If bringing cash in US \$, please make sure bank notes are in good condition, with no cuts or damage and are not older than 2004. Most banks offer higher exchange rates for US \$ 100 / US \$ 50 bank notes compared to US \$ 20 / US \$ 10 or US \$ 5 bank notes.

### *Travel, Transport and Getting Around*

If you are visiting a number of parks and reserves in Tanzania, you can either drive or fly between them. Roads in most of the wilderness areas are in poor condition and unmarked, and self-driving is not recommended. Operators will supply you with a driver who doubles as an informal guide; alternatively, you can arrange to fly to your destination and utilize a car and driver supplied by the lodgings. Elsewhere in Tanzania, towns and cities are linked by a steady stream of buses and *dala-dalas* (minibuses), and in the cities, there is public transport in the way of buses, *dala-dalas*, taxis, and, in some places, bicycles or *tuk-tuks*.

Precision Air run regular services, mostly via Dar es Salaam, Kilimanjaro or Zanzibar, to all main towns and other destinations in East Africa and beyond. All national parks and some of the top-end luxury lodges have airstrips and

Coastal Air operates between these and the main airports on the mainland and the islands of Zanzibar, Pemba and Mafia. ZanAir has frequent connections between Zanzibar, Pemba and the mainland.

Driving is on the left hand side of the road

### *Food, Drink and Cuisine Advice*

Most camps, lodges or hotels cater specifically to tourists and serve Western-style food, ranging in standard, but generally are excellent. Game lodges tend to offer a daily set menu with a limited selection, so it is advisable to have your tour operator specify in advance if you are a vegetarian or have other specific dietary requirements. First-time visitors to Africa might take note that most game lodges in and around the national parks have isolated locations, and driving within the parks is neither permitted nor advisable after dark, so that there is no realistic alternative to eating at your lodge.

Tap water in Tanzania is generally not safe to drink, and most travellers try to stick to mineral water. Filtered and bottled water can be difficult to find if you are travelling outside of main town and so it is advisable to stock up. Most camps, lodges and hotels have bottled water readily available.

### *Climate and Weather*

Just south of the equator, Tanzania is huge and its sheer size means that the climate varies considerably within it. However, generally the main rainy season, or the 'long rains', lasts during about **March, April and May**. Afternoon tropical downpours are the norm – which are heavier and more predictable beside the coast and on the islands. The humidity is high and daily temperatures reach the low-mid 30°s.

The long dry season lasts throughout **June, July, August, September and October** is when rainfall is unusual, even on the islands. Temperatures vary hugely with altitude and location, but it's usually a fine, clear sky and sunny weather – it's a great time to visit Tanzania. During **November and December** there's another rainy season: the 'short rains'. These are much lighter than the main rains and less reliable.

If it has rained during the short rains, then it normally dries up for a few months, **January and February**, which is Tanzania's 'short dry season', before starting to rain again in earnest in **March**.

### *Clothing and Dress Recommendations*

It never gets really cold in Tanzania so lightweight clothing, preferably cotton or linen, is recommended. While on a game viewing safari, avoid brightly coloured clothing, stick to whites, beiges, khakis and browns. There may be long days sitting in safari vehicles, so it is advisable to wear light comfortable clothing such as short sleeved shirts and cotton/linen trousers or shorts. Denim will become too hot and extremely uncomfortable. Walking shoes and socks will be required.

The evenings will be chilly, so long sleeved shirts and trousers should be worn. A sweater may be needed. These will also prevent you being bitten by insects. A hat should be worn at all times outside. The sun may sometimes not feel hot, but it can still easily burn, especially if it is cloudy and overcast.

If visiting Zanzibar or any coastal town don't forget to take a swimsuit, as it is invariably warm. Ladies are recommended to take cotton skirts, blouses and dresses. Sandals are a must for this environment! On the beaches and within the confines of hotels, normal swimwear is acceptable but nudity is not.

As over a third of the population in Tanzania is Muslim, it is therefore not etiquette for ladies to walk around in public displaying their legs and shoulders. Remember to dress modestly as short shorts, miniskirts, vests and tank tops will be frowned upon.

### *Electricity and Plug Standards*

The electricity supply in Tanzania is 220/240 volts at 50Hz. Plugs are 3 point square (UK Type). Adapters are available at major airports.
